

SHAW WOOD ACADEMY

CONFIDENTIALITY POLICY

<u>Date Prepared : April 2021</u>	<u>Prepared By : MR</u>	<u>Review Date : April 2022</u>
<u>Approved By Governors:</u>	<u>Signed By Chair:</u>	<u>Dated By Chair:</u>

Aim

To protect the child at all times and to give all staff involved clear, unambiguous guidance as to their legal and professional roles and to ensure good practice throughout the school which is understood by pupils, parents/carers and staff.

Rationale

Shaw Wood Academy seeks to put the child at the heart of the learning process and to provide a safe and secure learning environment. It seeks to implement the underlying principles of the Every Child Matters Agenda and to address the issues, which may arise about confidentiality. It is committed to developing creative and positive ways for the child's voice to be heard whilst recognising the responsibility to use, hold and safeguard information received. Sharing information unnecessarily is an erosion of trust.

The school is mindful that it is placed in a position of trust by all stakeholders and there is a general expectation that a professional approach will be used in all matters of confidentiality.

Objectives

- To provide consistent messages in school about handling information about children once it has been received.
- To foster an ethos of trust within the school.
- To ensure that staff, parents and pupils are aware of the schools confidentiality policy and procedures.
- To reassure pupils that their best interests will be maintained.
- To ensure that pupils and parents/carers know that school staff cannot offer unconditional confidentiality.
- To ensure that if there is a child protection issue then the correct procedure is followed.
- To ensure that confidentiality is a whole school issue and that in lessons ground rules are set for the protection of all.
- To ensure that parents have a right of access to any records the school may hold on their child but not to any other child that they do not have parental responsibility for.

Guidelines

- All information about individual children is private and should only be shared with the staff that need to know.
- All social services, medical and personal information about a child should be held in a safe and secure place which cannot be accessed by individuals other than school staff.
- Information collected for one purpose should not be used for another.
- Parents/carers and children need to be aware that, where there safeguarding concerns, total confidentiality can not be guaranteed.

- The school prides itself on good communication with parents and carers and staff are always available to talk to both children and parents/carers about issues that are causing concern. The school encourages children to talk to parents/carers about issues causing them concern and may in some cases support the children to talk to their parents. The school would share with parents any child protection disclosure before going on to inform the correct authorities, with the exception of a disclosure of sexual abuse as detailed in local arrangements.
- All children have a right to the same level of confidentiality irrespective of gender, race, religion, medical concerns and special educational needs. A lot of data is generated in schools by these categories but individual children should not be able to be identified.
- Photographs of children should not be used without parents/carers permission especially in the press and internet. This is often a cultural issue that the school needs to be aware of. At no time should the child's name be used with a photograph so that they can be identified. Children's photograph should not be used in a medical room identifying their medical need. The school gives clear guidance to parents about the use of cameras and videos during public school events.
- Information about children will be shared with parents but only about their child. Parents should not have access to any other child's books, marks and progress grades at any time especially at parents evening. However, parents should be aware that information about their child will be shared with the receiving school when they change school. All personal information about children including social services records should be regarded as confidential. It should be clearly understood by those who have access to it, and whether those concerned have access to all, or only some of the information. Information regarding health reports such as speech therapy, medical reports, SEN reports, SEN minutes of meetings and social services minutes of meetings and reports will be circulated in envelopes and once read should be returned for secure filing. Logs of administration of medication to children should be kept secure and each child should have their own individual log. In all other notes, briefing sheets, etc, a child should not be able to be identified. Addresses and telephone numbers of parents and children will not be passed on except in exceptional circumstances or to a receiving school.
- Governors need to be mindful that from time to time, in meetings, issues are discussed or brought to their attention about staff and children. All such papers should be marked as confidential and should be copied onto different coloured paper. These confidential papers should be destroyed. Governors must observe complete confidentiality when asked to do so by the governing body, especially in relation to matters concerning individual staff, pupils or parents. Although decisions reached at governors' meetings are normally made public through the minutes or otherwise, the discussions on which decisions are based should be regarded as confidential. Governors should exercise the highest degree of prudence when discussion of potentially contentious issues arises outside the governing body.

Monitoring and Evaluation

- The policy will be reviewed as part of the schools monitoring cycle.

Conclusion

Shaw Wood Academy has a duty of care and responsibility towards pupils, parents/carers and staff. It also needs to work with a range of outside agencies and share information on a professional basis. The care and safety of the individual is the key issue behind this document.
